We have grown this Wonder Berry now for eleven years and have found it the best by test. The huge size of the berries is truly marvelous. Just like little apples. Nine Strawberries will top a quart box.

market for top prices. We can safely say that we grow and sell more Mastodon Everbearing Strawberries around New Buffalo, Mich., and on the highway to roadside trade than any other place in the United States. Premier

Premiers were first put on the market in 1915, and plants of this fine variety spread over the country like wild-fire. It is a berry without a fault and with perfect satisfaction wherever grown.

One week earlier than any other variety in most localities. The Premier berry is medium dark, large size, above the average and very firm. Solid color, bright and glossy. They are beauties in a quart box. This famous variety is practically frost proof. Has a record of 728 16-quart cases per acre. Under natural conditions over \$1000.00 can be made from an acre of Premier. This cannot be done from any other farm crop.

A profit-making commercial Strawberry and a world-wide favorite of proven success. Actually more Premier plants have been sold the past few years than any other variety. Growers know the value of Premier and the consumers demand it. It is a mortgage lifter for any grower. Make your plans now. You can not go wrong by planting Premier, that was made famous by success. We would advise you to try out the above varieties in your locality and your soil. You will not be disappointed at fruiting time with any of these varieties.
